something equivalent, to that position of the Alice Memorial Hospital, and a trustee of the Nethersole Dispensary. And it is in the last named character that the reverend gentleman made his latest public appearance, which has necessitated the

writing of this article. On Tuesday last some new buildings on Bonham Road were formally opened by Governor Sir WILLIAM ROBINSON, which are in future to be connected with the Alice Memorial Hospital, and have been constructed especially for the benefit of the crowded Chinese district of Sal-ying-poon. The object of this Nethersole Hospital is worthy of all praise, and the inauguration ceremony would have left no room for adverse criticism but for the bad taste and deplorable 'all hatred and uncharitableness' displayed by the Rev. Mi CHALMERS, who "bossed" the function. A more gratuitously offensive and insulting speech than this demagogue's lil judged harangue has rarely if ever been delivered in Hongkong, excepting perhaps on previous occasions by the same reverend person, who apparently has forgotten that JOHN Knoxhas been dead hundreds of years and that his objectionable sectarianism THE distance from New York to Melbourne finds no favor in the light of modern via San Francisco, is 12,265 miles; to Hongkong. intelligence. Referring to the new hospital, he said :-It is not merely a monument of individual libe ality, it is a proof and a monument of our confidence in the liberality of the Hongkong community, tried and never found wanting, even in the bardest times. Times have been very hard, we all know, for six or eight years past; yet let me state in round numbers what has been done. In 1885 the community gave me freely \$8,000 to complete the purchase of the site for the Alice Memorial Hospital; then Dr. Ho Kai spent a similar sum on the building; Mr. Belillos end wed it with \$5,000. A garden fête brought. us \$9,000 for investment. A similar sum, with the help of a second fête, concerts, &c. has been raised annually by subscriptions from Europeans and Chinese. And now, if we add on the \$100'o represented by this substantial and rommodious Hospital, we get a total bordering on \$100,000. And this is not all. What a noble work those men of the medical staff are doing gratuitously ! Some peo; le are so afraid of getting the gold medal that they would not rescue a drowning man. It is only necessary to read the annual reports or to look in at the Alice Memorial Hospital any day when the work of healing is going on, to get a conception of the vast amount of good that is done (apart, if you like, from the religious teaching) the test of which is truly an application of the object lessons of the consulting room, and the dispensary, the operation room and the wards. Taking the annual expenditure as shewn in the reports and comparing it with the total number of cases of suffering relieved, disease cured or life saved, it will be seen that the cost is on average about a dollar a head. Why, you could herdly get a dose of medicine at a dispensary for less. Our bright hope, then, is that in the good times coming the two hospitals will be even better supported than the one has been, and that God will continue to bless the whole Colony more and more is all good things. The London Missionary Society and the medical staff are pledged to carry on the work in this place on the same lines as in the Alice Memorial Hospital. A NEW ERA OF GOLD MINING.

The closing of many silver mines in the Wesern States seems to be a foregone conclusion. This cessation of operations is probably only temporary. The mineral will keep under ground. Some mines will fill with water, but when it again pays to work the ore the water

When the Comstock lode was discovered it overshadowed all the other mineral discoveries is Colorado, Mentana and Idaho drew from this State another considerable mining interest, The production of gold in California dropped down slowly from year to year. Yet from the first discovery until now California has been the foremost grid-producing State on the Continent. The probability is that our gold-miners are on the eye of a new development, and that we shall soon see a great increase of production.
